Prosper Oil & Mining Company
1717 North Highland, Suite 310
Hollywood 28, California

Attn: C. E. Justice, President

Gentlemen:

We have received your notice of intention to drill Well No. 1, located 1980 feet from the north line and 1980 feet from the east line of Section 16, Township 42 South, Range 17 West, SLBM, Washington County, Utah. As we advised you in our telephone conversation of February 2, 1962, we can not approve this notice until you have filed a drilling and plugging bond with this office. We indicated that we would approve the notice provided you furnish us a letter from the insurance company supplying the bond that such a bond was being effected.

With your permission, we propose to call this well the PROSPER-SHIWITS #1, since a Well No. Shiwits #1 is in existence.

We also note that you indicate a drilling and plugging bond has been filed with the state of Utah; however, such bond, when filed, will be with this Commission, rather than the state of Utah.

We also request that you check the 4,000 feet elevation of the derrick floor. It appears rather unlikely such derrick floor will be exactly even above sea level. If you do not have this exact elevation at this time, please advise and we will so indicate on your notice; however, an accurate elevation must be filed in the near future.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

ROBERT L. SCHMIDT,
CHIEF PETROLEUM ENGINEER

SURVEY

Mr. J. R. Schwabrow
Regional Oil & Gas Supervisor
Geological Survey
P. O. Box 400
Casper, Wyoming

JUN 3 1956

Dear Mr. Schwabrow:

In your letter of June 28 you stated that the Great Western Petroleum Company, Las Vegas, Nevada, proposes to drill an oil and gas test well on Shiwits Indian tribal lands. You pose the question of whether or not Federal supervision has been terminated.

By the act of September 1, 1954 (68 Stat. 1099), Federal supervision over Shiwits Indian land was terminated. By Trust Agreement, dated August 18, 1956, subsurface rights of the subject property was transferred to the Walker Bank and Trust Company, Salt Lake City, Utah, as Trustee.

Sincerely yours,

George W. Hedden
ASST. Area Director

NOTED — HARSTEAD

Miscellaneous information taken from the drilling records of:
(Frontier Drilling Company)
PROSPER OIL & MINING COMPANY
Well No. Prosper-Shivwits #1,
Sec. 16, T. 42 S., R. 17 W.,
Washington County, Utah

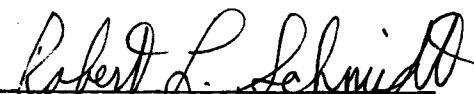

Spudded: 9:00 AM, February 11, 1962

Drilled 12 $\frac{1}{4}$ " hole to 60' (Bit #1). Drilled 8 $\frac{3}{4}$ " hole from
60' to 180' (Bit #2).

0-90' Shale and gravel
90-180' Gravel and boulders

Encountered no water.

Stopped drilling: ~~January 2,~~ ^{Feb. 12,} 1962 at a total depth of 215'.

ROBERT L. SCHMIDT,
CHIEF PETROLEUM ENGINEER

March 19, 1962

Mr. Ronald N. Boyce,
Assistant Attorney General
Room 236 State Capitol Bldg.
Salt Lake City, Utah

Dear Ron:

Herewith is the memo requested. Incidentally, Mr. Everly plugged the Prosper-Shivwits #1 Well under the supervision of Mr. Robert Schmidt today.

Would you please take the necessary action to terminate the injunction.

Thank you.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FEIGHT,
EXECUTIVE DIRECTOR

Enclosure

M E M O

March 19, 1962

On March 14, 1962, I appeared before the Honorable Judge Maurice Harding, of the Fifth District Court, Washington County, in behalf of the Oil and Gas Conservation Commission, for the purpose of obtaining an injunction against Mr. LeRoy Everly and the Frontier Drilling Company, an alleged Nevada Corporation. Mr. Everly had commenced drilling a well for discovery of oil and/or gas without complying with rules and regulations necessary to obtain approval to drill such well from said Commission.

A Temporary Restraining Order prohibiting Mr. Everly from further drilling and removal of the rig from the location had been signed by Judge Harding and served by Sheriff Roy R. Renouf on or about March 9, 1962. Notwithstanding the Temporary Restraining Order, Mr. Everly had removed part of the rig (the derrick) from the location, as was discovered when Mr. Robert Schmidt, our petroleum engineer, and I encountered him at Paragonah on our way to the hearing. In response to our inquiry as to why he had ignored the Temporary Restraining Order, Mr. Everly stated that the rig had been moved off the location prior to his being served and that Mr. Charles M. Pickett (who represented Mr. Everly at the court hearing and who is County Attorney of Washington County) had told him that he could proceed with his plans to move the rig to Cisco Field. Mr. Schmidt and I proceeded to St. George and drove to the well location. We observed that most or all of the drilling equipment except for the aforementioned derrick was still at the well site.

I discussed the case privately with Mr. Pickett before the hearing. He indicated that it had been his understanding that the entire rig had been removed from the location prior to service of the Temporary Restraining Order, and also that Mr. Everly would receive sufficient money to pay a personal property tax due in Washington County as soon as he delivered his rig to an operator in the Cisco Field.

Since the derrick had already been removed, I felt that nothing would be gained by seeking to enjoin removal of the remainder of the equipment. The Court granted my petition to permanently enjoin Mr. Everly and the Frontier Drilling Company from drilling any other wells in the State of Utah until either a bond was furnished to this Commission or the well in question had been plugged under the supervision of Mr. Robert Schmidt.

CLEON B. FEIGHT
